

SAVIORUR 'Denim Jacket' FR

General Description:

Protection of all body parts is a must in any manufacturing facility. It is necessary when working in areas where Splinters or Sparks are generated as a result of ongoing operation like Welding sparks, Coal or Coke splinters or hot ash, molten metal etc "Saviour" Body Protection garments are just the right product for such applications as they are made up of tested Fire Retardant Fabrics to provide safety form splinters which can harm the body because of Heat or ignite fire if fallen on normal clothing.

MODEL NO: BPSAV-DFR
