

SAVIORUR 'FRP' Helmet

General Description:

Head protection is a must for every type of Manufacturing Facility. It is the basic need of any Industry or Field activity however big or small.

The Head, is most vulnerable to injury due to falling objects or unpredicted fall or bumps not only to those who are in Operations but all those involved in Inspection, Design, Field work or Workshop activities .The same is extended to by Civil personnel involved in Fire & Rescue, Traffic Management etc.

'FRP' Safety Helmets are just the right helmets for protection where there is heat as they provide complete Head protection and are also comfortable to wear in those conditions being resistant to Heat and fire to an extent.

Availability in Colors: White, Yellow & Red

MODEL NO: HPSAV-FRP

Specifications

'FRP' Helmets with PVC head band are made out of Light weight yet tough Fiber reinforced Plastic [FRP]. The FRP Material because of its inherent properties ensures the resistance of Helmet against heat or exposure to Flame. The headband of this model has internal fittings made of PVC which is adjustable and provided with anti-concussion tapes to form a cradle. A chin strap made of cotton is provided with a buckle for adjustment. They are excellent against heat and also suitable for performance at low temperatures and show resistance to many chemicals.
