

SAVIOR Welding Face Shield for Tough Hat

General Description:

'Saviour' Helmets are used widely in the Industry both for Indoor and Outdoor applications.

During Welding Process be it Argon / ARC / TIG / MIG / Plasma etc. protection is required not only for the Head but also entire face. This is required mostly in Mechanical workshops or during Erection – Fabrication of Plants, Equipment's and Machinery.

'Saviour' Welding Face Shields adapts to the Helmet with ease for ensuring perfect protection in such cases.

MODEL NO: HPSAV-THW

Specifications

- ◆ **'Saviour'** Helmet mounted Welding Face Shields with special slot fix attachment suitable for fixing on **'Saviour'** Tough Hat Helmet. It is delivered with 9 din German Welding Glass and 2 mm clear Glass inside.
- ◆ Welding glass is fitted in flip type front thus making it more comfortable for the welder. It can be attached even with **'Saviour'** Helmet with Ratchet type Harness.

Applications

- ◆ Mechanical Engineering Workshops in any Industry.
- ◆ Erection / Commissioning of Plants and Equipment.
- ◆ General fabrication Work indoors or Outdoors.

Advantage

- ◆ Protection of Eyes and Face during Welding Operations.
- ◆ Can be fitted with both Ratchet and Normal harness type **'Saviour Tough Hat Helmet.'**
- ◆ Comfortable to use.
- ◆ Very easy to fix on Helmet.
- ◆ Flip type welding glass.
- ◆ Provided with 2 mm protective grinding glass inside for normal operations.

Certification

- ◆ **Manufacturer's Test Certificate**
