

SAVIOUR

Sanitization Cabin / Tunnel

General Description:

In an attempt to boost the fight against coronavirus, Sure Safety designed a full-body SAVIOUR disinfection chamber they are calling the personnel sanitization enclosure (tunnel). Saviour Sanitization disinfection cabins are able to spray disinfectants in the enclosure to destroy germs, bacteria and viruses. The cabins are installed mainly near offices, industrial gates and public transportation stations and shelters. The disinfection chamber is very easy to use, simply enter it, and rotate your body 360 degrees as disinfectant is sprayed inside the chamber.

MODEL NO:

SAV-SC

SAVIOUR[®]
Performing PPE
