Saviour FG-10 Face Shield

The 'Saviour' FG-10 Face Shield with Clear Visor provides comprehensive protection for the entire face, particularly in mechanical workshops and environments with chemical splash hazards. It features an adjustable head strap with a ratchet-type harness for ease of movement and adjustment. The headband includes a crown for extra protection of the forehead and temples, along with a sweatband for comfort during extended wear. The swivel-type headband arrangement allows flexibility for up and down movement. The visor is constructed from high-impact resistant acrylic plastic with 100% optical clarity, ensuring optimal safety.

TECHNICAL SPECIFICATION

| | |
|-----------------|--|
| Construction | Adjustable head strap with ratchet-type harness, crown, sweatband. |
| Visor Material | Acrylic plastic with 100% optical clarity. |
| Visor Thickness | 2 mm |
| Visor Size | 9 inches x 12 inches. |
| Visor Thickness | 2 mm |
| Visor Size | 9 inches x 12 inches. |

ADVANTAGES

- Provides face protection against chemical splash, flying objects, grinding chips, etc.
- Lightweight visor offers high impact resistance.
- Optical clear visor provides perfect vision.

APPLICATIONS

- Mechanical engineering workshops incorporating grinding, chipping, and polishing operations.
- Industries utilizing sawdust/sand and limestone crushing.
- Chemical/pharmaceutical industries handling volatile fluids.
- Refineries/fertilizers handling hot oil and volatile crude.

CERTIFICATION

Internal Test Certificate.
As per IS 8521-1:1997 Standard.
