Saviour Heat Shield Gloves

The Saviour Heat Shield glove is a heavy-duty product that can withstand high temperatures and molten splash. It is a Category III glove that meets EN 407 and EN 388 standards for thermal and mechanical protection. It is ideal for welding, machinery, and other hot work.

The glove has a comfortable jersey palm lining and a cotton denim cuff. It also has a leather palm reinforcement and Kevlar® seams with cowhide pieces for extra durability and resistance to cuts, punctures, and abrasions.

TECHNICAL SPECIFICATIONS

Construction	Cut & sewn
