Saviour Weldstar IR5 Goggles

Eye protection is vital in all industries, prioritizing safety, comfort, and aesthetics. 'Saviour' IR5 Safety Spectacles offer 100% eye protection while ensuring wearer comfort and a stylish look.

TECHNICAL SPECIFICATIONS

Impact	Protection against moderate impact hazards, metal chips, particles, and sparks.
Metal	Industrial processes involving high temperatures, such as medical equipment and welding machine operations that emit hazardous electromagnetic radiation.
Particles	Prolonged exposure to the light emitted during these processes can lead to serious eye injuries over time.
Sparks	An anti-fog coating to prevent lens misting and a scratch resistance coating for durability.
UV	100% UV resistance for added eye protection.

CERTIFICATION

EN 166 :2001

APPLICATION

- Heavy and general fabrication works.
- Mechanical workshops involved in grinding and chipping tasks.
- Workshops utilizing heavy metal and lathe machines.
- Moulding shops.
- Foundries, furnace shops, and kilns.
- Industrial settings requiring comprehensive eye protection, particularly in outdoor work conditions.

ADVANTAGES

- Lightweight frame for comfortable wear.
- Ergonomically designed for enhanced usability.
- PC lens with dual-material construction for UV protection.
- Temple soft rubber nose pads for added comfort.
- Anti-fog coating prevents lens misting.
- Scratch-resistant coating for increased durability.
- Welding IR 5.0 lens for specific welding applications.

ACCESSORIES

Soft Pouch

Lint-free Cleaning Cloth

Hanging Cord
