

HAZMAX™ FPA BOOT

Hazmax™ FPA boots offer the same performance as Hazmax™ boots but provide increased heat resistance and conforms to the EN 15090:2012 H₃F3A Fire fighter boot standard.

- Resistant to flame and radiant heat (20kW/m²)
- Heat insulation of the sole (250°C for 40 minutes)
- Green Hazmax chemically resistant compound shaft certified to EN 13832-3^{F3A}
- Black vulcanised rubber sole for maximum grip - 30% better than a conventional safety boot sole
