Complete Safety Solutions

Saviour Industrial Bump Cap

The Saviour Industrial Bump Cap is designed to provide essential head protection in various industrial environments. Made from virgin Grade PP Material, this bump cap offers reliable defense against accidental bumps and small falling objects such as nuts and bolts. It features ventilation holes on both sides of the shell, ensuring comfort even during extended wear. The lightweight and compact design of the HPSAV-BC makes it easy to wear and widely accepted by users across different industries.

APPLICATION

- Automobile Industries
- Paint Shops
- Electronic Manufacturing Facilities
- Assembly Shops
- Textile Processing houses
- Protection from small falling objects

MAINTENANCE AND CARE

- Clean with mild soap and water.
- Do not use abrasive cleaners.
- Inspect regularly for signs of damage or wear.
