Saviour Water Mist System + CAF (50L)

Introducing our robust 50-liter Saviour water mist system: engineered to rapidly suppress fires using a dense mist of fine droplets. Tailored for larger spaces, it minimizes water damage while delivering reliable fire protection.

TECHNICAL SPECIFICATIONS

Air Cylinders	Cylinder Volume		6L Steel or 6.8L Composite
	Nominal Pressure		300 Bar
	Storage Gas		Compressed Gas
	Seal Test Pressure		450 Bar
Extinguishing Agent Tank	Tank Volume		60L
	Working Pressure		8 Bar
Extinguishing Agent	Water or AFFF 3% foam		
Safety Valve	Available		
Diaphragm safety valve	Set at 15 Bar		
Reducer	Input Pressure		1-300 Bar
	Output Pressure		8 Bar
	Valve Opening		10 Bar
Spray Jet Performance	Continuous jet time		110 sec
	Continuous spray time		140 sec
	Jet Distance		15 meter
	Spray Distance		7 meter
Extinguishing Level	Class A	Class B	Di electrical
Certification	NABL certified lab as per EN:1866-1:2007 standard		
Total Weight	Approx. 100 kg
