Saviour Chempro Gloves

The Saviour Chem-Pro nitrile glove comes in various lengths, sizes, and linings, designed for wet or dry work with a focus on chemical resistance. It's reusable, highly durable, and comfortable.

These Chem-Pro Nitrile gloves are perfect for safe handling of harsh chemicals in different work environments. They're comfortable due to a cotton-flock liner inside and flexible nitrile film on the outer providing excellent grip with a reversed lozenge finish.

The gloves have a smooth surface with a sand patch finish, reducing costs by minimizing rejects. Plus, it's longer than standard gloves, offering extra protection for your wrist and lower forearm.
