Saviour Fumex Lite EX (Plastic Body)

The Saviour Fumex Lite Ex blower features a durable plastic body, delivering strong wind power while remaining energy-efficient. With its compact design and low noise operation, it offers convenient portability and suitability for various applications such as underground cable maintenance, shipbuilding, and ventilation in hazardous environments.

TECHNICAL SPECIFICATIONS

Material	Plastic body
Diameter (mm)	300
Voltage (V)	220-240
Frequency (Hz)	50
Speed (r/min)	2800
Watts (W)	500
Capacity (m3/min)	65
Static (pa)	385
Noise dB (A)	69
Air Volume (CFM)	2295
Dimensions (cm)	Product: 43x34x38, Box: 45x40x40
Weight (Kgs)	Product: 11.5, Box: 12.5

RECOMMENDED ACCESSORIES

High tensile
strength Hose

FEATURES

1. Energy saving
2. Strong wind power
3. Convenient to move
4. Makes low noise and light weight due to die-casting aluminum alloy.
5. With good capacity, reasonable structure, and strong suction.

APPLICATIONS

1. Specialized for underground cable maintenance, shipping making.
2. Blowing bad gas during welding, shipbuilding, canning, bridge construction.
3. Exhaust for firefighting, piping construction, and other violent working situations requiring ventilation.

PACKAGING BY SUPPLIER

1. Corrugated Box
2. Polybag

CERTIFICATION

- NOBO tested
