

## SAVIOUR CHEMI SPLASH GOGGLES

Model No.: EYSAV-CHS

## Saviour Chemi Splash Goggles

Eye protection has become essential in every industry, with comfort and aesthetics playing a crucial role for wearers who often have them on during working hours. Damage to the eyes is a common industrial injury, affecting not only those operating machinery and equipment but also those navigating hazardous areas.

'Saviour' Chemi Splash Goggles Spectacles address these protection needs by providing 100% safety to the eyes while ensuring comfort and a pleasing appearance.

### TECHNICAL SPECIFICATIONS

1. Provides protection against moderate impact hazards, metal chips, and chemicals.
2. Essential in industrial settings with high temperatures, such as medical equipment and chemical operations, where exposure to hazardous substances can cause eye injuries.
3. Features PC lenses with UV protection, a PVC frame, four vent parts, and an elastic band for added comfort and security.

### KEY HIGHLIGHTS

1. Lightweight frame for comfort.
2. Ergonomic design for a natural fit.
3. PC lens with UV protection.
4. Anti-scratch coating for durability.
5. PVC frame with four vents to prevent fogging.
6. Elastic headband for a secure fit.
7. Anti-fog lens for clear vision in all conditions.

### APPLICATIONS

1. Foundries, furnace shops, and kilns.
2. Industrial environments requiring comprehensive eye protection, particularly in outdoor work conditions.
3. Chemical industries.

### CERTIFICATION

- IS 5983 : 1980
