

## SAVIOUR DISPENSER

Model No.: EPSAV-JY-030-R-DISPENSER

# Saviour Dispenser

In every manufacturing facility, noise is inevitable, and its intensity can differ based on the operations. To safeguard against high-pitched noise, especially in mechanical workshops, running plants, and manufacturing industries where machines and equipment generate significant noise, protection is essential. Introducing Saviour Dispenser designed to make it easy for workers to access hearing protection products.

## TECHNICAL SPECIFICATIONS

Material	Soft PU foam material
Type	Wall mounted
Capacity	500 earplugs/ dispenser
Noise reduction level	35 dB

## APPLICATIONS

1. Manufacturing
2. Mining and Extraction
3. Transportation and Logistics
4. Energy Production
5. Construction Work
6. Hunting
7. Shooting
8. General Hearing Protection

## CERTIFICATION

- Tested as per EN 352-2

## KEY HIGHLIGHTS

1. Enjoy ultimate comfort with our premium foam earplugs, free from discomfort, pain, or ear aches.
2. The wall-mounted dispenser caters perfectly to various activities including sleeping, construction work, concerts, hunting, shooting, snoring management, and general hearing protection.
3. Featuring a slow rebound characteristic, our uncorded earplugs conform fully to the ear canal, courtesy of their soft PU foam construction.
4. The bullet design of our earplugs guarantees a snug fit in most ear canals, enhancing ease of use.
5. Crafted with soft PU foam material, our earplugs maintain low pressure within the ear for prolonged comfort during wear.
6. Specifically tailored for sleeping, our noise-blocking earplugs ensure uninterrupted rest.
7. Ear plug refill pack available.
