Saviour Foot Controlled Combination Eyewash / Shower

The Saviour Foot controlled combination eyewash/shower is designed to wash away contaminants from the eyes, face, or body of the user. It has a SS304 main material and an ABS pedal, which are suitable for mild acids and bases. For stronger acids, bases, or chlorides, use SS316 or ABS eye wash instead.

TECHNICAL SPECIFICATIONS

Total Length	2330 mm
MOC	SS 304
Eyewash flow	11.4L/Min
Head Shower Flow	75.7L/Min
Hydraulic Pressure	0.2-0.6MPA
Head	SS 304 shower head
Eye wash nozzle	ABS single nozzle, others are SS304 with 10" waste water recycle bowl
Shower valve	1" SS304 ball valve
Eye wash valve	1/2" SS304 ball valve
Supply	1 1/4" FNPT
Waste	1 1/4" FNPT

CERTIFICATION

NOBO tested as per ANSI Z358.1-2014

Tested as per IS 10592:2018

KEY HIGHLIGHTS

- 
1. Shower
 2. Hand operated shower
 3. Jointless design delivers no leakages
 4. Eyewash handle polymer coated for better grip and corrosion resistant
 5. Foot and hand operated eyewash
 6. Made of 100% SS 304
 7. Pedal operated eye wash

APPLICATIONS

1. Hazardous Material Handling Areas
2. Research and Development Facilities
3. Battery Charging Stations
4. Construction Sites
5. Chemical Storage Areas
6. Pharmaceutical Manufacturing
7. Manufacturing Facilities
8. Chemical Laboratories
