## Saviour Heat Shield Gloves

The Saviour Heat Shield glove is a heavy-duty product that can withstand high temperatures and molten splash. It is a Category III glove that meets EN 407 and EN 388 standards for thermal and mechanical protection. It is ideal for welding, machinery, and other hot work.

The glove has a comfortable jersey palm lining and a cotton denim cuff. It also has a leather palm reinforcement and Kevlar® seams with cowhide pieces for extra durability and resistance to cuts, punctures, and abrasions.

### TECHNICAL SPECIFICATIONS

|                |                                 |
|----------------|---------------------------------|

| Liner Material | Split leather with Kevlar Seams |
| Cuff Style:    | Gauntlet                        |
| Colour         | Yellow                          |
| EN Size        | 10                              |
| Length         | 415 mm                          |
| Packaging      | 72 pairs/ carton                |

### KEY HIGHLIGHTS

1. The gloves feature a combination of regular and tanned split leather.
2. They have extra reinforcement at the thumb for better grip and heat protection, lined with flannel for high-heat protection.
3. The extended wrist provides additional forearm protection from heat.

### APPLICATIONS

1. Handling loads with the risk of heat or molten splashes | Intensive welding tasks
2. Heavy and general fabrication tasks.
3. Mechanical workshops involving grinding or chipping.
4. Workshops utilizing heavy metal and lathe machines.
5. Molding shops.
6. Foundries, furnace shops, and kilns.
