SAVIUR HELMET MOUNTED EARMUFFS UNIVERSAL

Model No.: EYSAV-EF

Saviour Helmet Mounted Ear Muffs Universal

The 'Saviour' Helmet-Mounted Ear Muffs with Universal Attachment are designed to securely fit onto helmets equipped with universal slots. Constructed from durable polymers and featuring cushioned pads, these ear muffs offer reliable hearing protection with an SNR of 25 dB(A).

TECHNICAL SPECIFICATIONS

Material	Polypropylene
Construction	<ul style="list-style-type: none">• Compact foldable ear cups with soft cushion• Adjustable headband to suit various head shapes and sizes.
Noise limit	Up to 100 dB

APPLICATIONS

- 1. Mechanical engineering workshops engaged in activities such as grinding, chipping, and polishing.
- 2. Workshops experiencing machinery noise during operations like grinding.
- 3. Industrial plants producing high levels of noise due to machinery and equipment, or from the crackling effects of their operations.

KEY HIGHLIGHTS

- 1. Guards against hearing loss and minimizes cord-induced sound vibrations.
- 2. Washable, enabling multiple uses and providing cost-effectiveness.
- 3. Features an anti-vibrating cord for added comfort.
- 4. Boasts an SNR/NRR rating of 25 dB.

CERTIFICATION

- Tested as per EN 352
