

SAVIOUR PVC BLANKET

Model No.: PFSAV-WBS

Saviour PVC Blanket

Safety nets are designed to provide fall protection for personnel working at height, preventing injuries from falls and protecting materials from falling to lower levels.

TECHNICAL SPECIFICATION

Material	MGT 0.5 PVC Coated Fabric	Fabric Thickness	0.35 ± 0.05 mm
Coating	PVC Blue	Fabric Width	1000 ± 20
Base Fabric Type	E-Glass Fabric	Fabric Temperature Resistance	550 °C
Typical Application	Insulation	Overall Mass	720 ± 10 % GSM
Base Fabric Mass	420 ± 10 % GSM	Finished Thickness	0.5 ± 0.05 mm
Weave	Satin	Coating Temperature Resistance	150 °C
Fabric Thickness	0.35 ± 0.05 mm		

APPLICATION

- Thermal and acoustic insulation covers
- Protective blankets for hot surfaces
- Welding and fire protection curtains
- Expansion joint covers and insulation pads
- Heat-resistant flexible ducting
