FEATURES

Comfortable Design	Ergonomic design and special brim structure for user comfort.
Adjustable Fit	Customized fit with adjustable chin strap and headband.
Soft Sweatband	Conforms to head contours, maximizing sweat absorption.
Wide Applications	Suitable for various industrial segments requiring complete head protection.
Safety Certified	Certified to IS 2925:1984 (Rev.2005) safety standards.
Impact Resistant	High-impact polyethylene shell for protection against heavy blows.
Accessory Compatibility	Compatible with various accessories for enhanced versatility.
Impact Protection	Utilizes high-impact shell and shock-absorbing foam for superior head protection.
Visor Compatibility	Easily attaches optional visors for added face protection.
Lightweight and Durable	Minimizes strain with lightweight build and ensures durability.

APPLICATION

- Erection/Commissioning
- Fabrication
- Pipeline Installation
- Mechanical Workshops
- Construction Projects
- Maintenance Operations
- Manufacturing Facilities
- Warehouses
- Mining Sites
- Oil & Gas Facilities
- Utility Maintenance

ADVANTAGES

- High impact resistance for enhanced safety.
- Ergonomic design for ease of wear and increased comfort.
- Soft sweatband for maximum comfort and sweat absorption.
- Adjustable chin strap for proper fitment and increased safety.
- 6-point suspension for uniform fitment and user comfort.

MAINTENANCE

- Clean with mild soap and water regularly to remove dirt and debris.
- Inspect regularly for signs of wear, damage, or deterioration.
- Replace if any components are damaged or compromised.
- Store in a cool, dry place away from direct sunlight and extreme temperatures.

CERTIFICATION

IS 2925:1984
