Performing PPE

## SAVIOUR PORTABLE COMBINATION EYE WASH / SHOWER

Model No.: CS-OTSS-570A

## Saviour Portable Combination Eye Wash / Shower

Emergency Eye wash and Shower units are designed to remove contaminants from the user's Eyes, Face, or Body. They are vital for first aid in case of an accident. However, they do not replace primary protective devices, such as Eye and Face protection, Protective clothing, or safety protocols for hazardous materials.

The Saviour Portable Combination Eye wash/Shower is ideal for areas without water supply. It can fill up to 35 Litres of water.

### TECHNICAL SPECIFICATIONS

Total Length	2130 mm
Total weight	43.6 kg
Head	10" SS 304 Shower head
Eyewash	Ss304 with ABS
Shower valve	3/4" dia. SS304 ball valve
Eye wash valve	1/2" dia. SS304 ball valve
Supply pipe	56 mm diameter
Waste pipe	1/2" FNPT
MOC of water tank	SS304
Operating pressure	2 to 6 bars
Water Storage Capacity	45 litres
Water Filling Capacity	35 litres

### KEY HIGHLIGHTS

1. Comprehensive Contaminant Rinse.
2. First Aid Equipment.
3. Durable Construction
4. Portable Solution for Areas without adequate Water Supply.
5. Made of Stainless steel SS304
6. Washing time for eye wash exceeds 15 minutes.
7. Washing time for shower exceeds 1 minute.

### APPLICATIONS

1. Hazardous Material Handling / Storage Areas.
2. Research and Development Laboratories / Facilities.
3. All Manufacturing and storage Facilities in the industry like Chemicals, Petrochemicals, Fertilizers, Oil & Gas Industries, Refineries, Pharmaceutical Industries etc.

### CERTIFICATION

NOBO tested as per ANSI Z358.1-2014

#### Warning:

1. Equipment is for emergencies only; tampering may cause malfunctions.
2. Notify security and supervisory personnel after equipment use.
3. Install the safety valve to safeguard the users eyes in case the pressure exceeds 0.2-0.6MPa.
4. Use Drinking water or filtered water only.
