

SAVIOUR 'PVC' Suit

General Description:

Protection of all body parts is a must while handling Fluids in any manufacturing facility. It is more so while handling Chemicals, Gas or Hot Crude & Oil as in refineries.

'Saviour' Body Protection Suits are just the right product for such applications as they are made up of tested Fabrics to provide safety form splashes, spillages, direct and indirect contacts as well.

MODEL NO: BPSAV-PVC-ST

Specifications

'Saviour' PVC chemical Splash protection suit is made from soft and durable "TOYLAMNIA" grade PVC. It is resistant, to peeling, cracking and tearing, and is also acid and alkali resistant. It comprises of a Coat ,Pant (Trouser) and hood which has a replaceable head gear and replaceable extra large visor, air breather at back with flap. The waist of the Pant is elasticized and the front of the Coat is provided with a zipper and covered with an overlapping flap held by strong vinyl unbreakable, rust proof welded buttons and holes that defy rough wear. The complete suit is welded by high frequency welding machine at all seams to make it water proof and provides protection against all Chemical splashes etc.

Applications

- ◆ Chemical & Petrochemical Industries.
- ◆ On field operations.
- ◆ Chemical Labs.
- ◆ Pharmaceuticals & Solvent plants.
- ◆ Cement Plants.

Advantage

- ◆ Light weight.
- ◆ Extended life & Reusability.
- ◆ Protects against chemical spill & splash.
- ◆ High Frequency welded for Extra Protection.
- ◆ Waist with elastic makes it universal Fit.
- ◆ Available in Boiler suit-one piece Design.

Certification

- ◆ Conforms to **BIS 4501-1981 / 5915-1970.**
