

SAVIOUR TIGER P1 MASK WITH/WITHOUT VALVE

Model No.: RPSAV-TIGERV

Saviour Tiger P1 Mask With/Without Valve

Face mask is used to reduce workers' exposure to respiratory hazards, such as fumes, mists, gases, vapors, or harmful dusts. Respirators are also used to protect workers against oxygen deficient atmospheres. Using respiratory protection in the workplace is beneficial as it increases productivity and growth. Saviour range of Respiratory Protection devices are comfortable, cost effective and provide complete protection to the user.

TECHNICAL SPECIFICATION

Product Type	Lightweight Respiratory Face Mask
Design	Ergonomic & Comfortable Fit
Edges	Sealed, Lint-Free Edges
Nose Clip	Integrated Nose Clip with No Exposed Metal Parts
Fabric Type	Nonwoven Fabric
Inner Lining	Moisture-Absorbing Inner Lining
Breathability	Enhanced Airflow for Long-Duration Wear
Stiffness	Maintains Shape During Extended Use
Valve	Equipped with Exhalation Valve
Usage	Suitable for Prolonged Wearing Applications

KEY FEATURES

- Maintenance free and inexpensive
- Lightweight
- Comfortable and easy to wear

APPLICATION

- All Industrial and Commercial segments for General purpose protection.
- For work in areas containing oil-free particulate aerosols
- Ideal for grinding, Chipping, sweeping, general maintenance, and other works industry environment.

CERTIFICATION

- Conforms IS 9473:2002
