The Space Suit

We Are Proud To Have Developed India's FirstEngineering Model For **ISRO** The Astronaut Crew Escape Suit, Widely Known as **'The Space Suit'**.Our Continuous Efforts And Advancements Have Further Enhanced Our Capabilities, Allowing Us To Now **Manufacture Space Suits** With Even Greater Proficiency.

- If we can protect astronauts beyond Earth, we can protect your workforce on Earth.
- The same innovation behind India's Space Suit drives every Sure Safety product.
- Every solution is developed with accuracy, reliability, and critical safety in mind.
- Sure Safety stands for trusted quality and proven performance in demanding environments.
- Because when safety is critical, trust must be absolute.

TRUST *IS* **EVERYTHING**

WHY SURESAFETY

COMPLETE SAFETY SOLUTIONS

PPE, Fire, Fall Protection, Training & Consulting.

500+ PPE PRODUCTS

Wide head-to-toe safety product range.

EXPERT SAFETY KNOWLEDGE

Backed by research and industry experience.

TRUSTED QUALITY

Reliable products for tough work environments.

INNOVATION FOCUSED

Continuosly Improving for better worker safety.

"Protecting People. Improving Performance. Powering Safety."

> Transforming the perception of safety being an added compliance activity, to safety being an integral strategic & revenue-making activity for business units across the globe

OUR MANUFACTURING FOOTPRINT

MANUFACTURING UNIT (RANOLI)

In-house manufacturing of high-quality industrial safety and personal protective equipment (PPE) solutions. Engineered with innovation and maintained with stringent quality standards to ensure workplace safety and reliability.

GARMENT PRODUCTION

RESPIRATORY ASSEMBLY

HELMET PROTECTION

CORPORATE OFFICE (CHHANI)

Central hub of Sure Safety India Limited, coordinating operations across all verticals.

LABS

India's First In House Labs For Full Range Of PPE.

Respiratory Lab

Garment Lab

Eyewear Lab

Helmet Lab

EV Blanket Lab

SAVIOUR® Performing PPE

VISION

To re-imagine industrial safety through innovation, quality and technology, creating safer and more productive workplaces.

Protecting people, enhancing productivity and building safer futures.

PROTECT PEOPLE
Reliable safety for every worker.

POWER PERFORMANCE
Solutions that improve productivity.

BUILD SAFER FUTURES
Innovation-led protection for tomorrow.

HEAD PROTECTION

EN Fire Helmet

Model No.: HP-PAB

Features:

- Complete Head Protection with comfort of wear
- Higher Impact resistance ensures higher Safety.
- Soft Sweatband
- Adjustable Chin strap ensures proper fitment ensuring higher Safety

Applications:

- Construction site
- Industrial facility
- Warehouse
- Outdoor work environment

Certificate

- EN:443

Fireman Helmet- “Fire Pro”

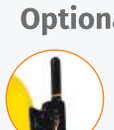

Model No.: HPSAV-TH

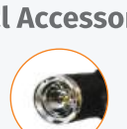

Features:

- Strength & durability
- Thermal insulation
- Longevity
- Water, Electrical and chemical resistance

Optional Accessories:

Communication System

Light Side Mode

Mic

Applications:

- Airport, marine, and oil & gas firefighting units.
- Civil defense and disaster management operations.
- Factories, warehouses, and refineries.
- Firefighting operations in industrial, commercial, and residential settings.

Certificate:

IS 2745

CM/L-7100128695

Electrical Helmet

Model No.: HDSAVVARC-EH

Features:

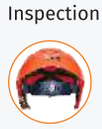

- High-Voltage Electrical Protection
- 6-Point Nylon Suspension
- Soft PU Sweat-Absorbing Band
- Universal Accessory Slots

Certificate:

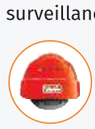

- Tested As Per IS 2925:1984
- Tested As Per ERDA RP-1516-017837

Applications:

- Electrical substations & power generation plants
- Industrial segments demanding complete head protection both indoor and outdoor
- Engineering workshops
- Construction industry
- Maintenance and operations
- Inspection and surveillance

EY-601 Safety Eyewear

Model No.: EYSAV-601

Features:

- Maintains stability in elevated temperatures
- Provides complete side protection
- Adjustable arms for customized fit
- Coated lens to resist scratching and to prevent fogging

Applications:

- Construction sites
- Mechanical engineering workshops
- Automotive repair shops
- For activities such as erection, commissioning and pipeline installation

Certificate

EN 16321

I-1002 Safety Eyewear

Model No.: EYSAV-I-1002C

Features:

- Provides complete side protection
- Features adjustable arms for customizable fit
- Equipped with anti-scratch coated lenses
- Incorporates anti-fog coated lenses

Applications:

- Mechanical engineering workshops
- Construction sites
- Automotive repair shops
- commissioning and pipeline installation

SP1 Over Spactacles Goggles

Model No.: EYSAV-SP1

Features:

- Lightweight frame
- 99.9 % UV protection
- Hard coating
- Low impact resistant

Applications:

- Power & utilities- Packaging
- Automotive- Assembly line
- Metal & utilities- Packaging
- Cement- Dusty area

Certificate

- Compliant with EN166 standards, this eyewear ensures optimal safety.

EN 16321

Eco Goggles

Model No.: EYSAV-ECO GOGGLES

Features:

- Lightweight frame
- 100 % UV resistant
- Anti scratch, anti fog coating
- Designed with ergonomic considerations

Applications:

- Mechanical engineering workshops
- Automotive repair shops
- Paint industry operations
- Woodworking and furniture shops

EYE PROTECTION

Series 6 Safety Eyewear

Model No.: EYSAV-SERIES 6C

Features:

- Light weight frame
- Ergonomically designed
- Adjustable side arms adjusts to three different length for comfortable fit for just anyone
- Fully covers eyes in front and side.
- Anti – Fog coating prevents chemical mist formation on the lens.

Certificate

EN 16321

Applications:

- For activities such as erection, commissioning, and pipeline installation.
- Mechanical engineering workshops.
- Construction sites.
- Automotive repair shops.

Chemi Splash Goggles

Model No.: EYSAV-CHS

Features:

- Lightweight frame for comfort
- Ergonomic design for a natural fit.
- PC lens with UV protection.
- Anti-scratch coating for durability

Certificate

EN 16321

Applications:

- Foundries, furnace shops and kilns
- Chemical industries
- Industrial environments requiring comprehensive eye protection, particularly in outdoor work conditions.

Durability | Lightweight | UV Protection

Weldstar IR Goggles

Model No.: EYSAV-IR5

Features:

- Lightweight frame
- 100% UV resistant
- Anti scratch, anti fog coating
- Ergonomically designed nose pad and side sealed cover

Certificate

EN 16321

Applications:

- Heavy & general fabrication works.
- Moulding shops
- Foundries, furnace shops
- Construction industry sites

Aluminized Silver Visor

Model No.: BPARC-ASK11

Features:

- Impact resistant
- Aluminum reinforcement
- Super IR protection
- Resistance to ignition

Applications:

- Industrial workplace
- Laboratories
- maintenance and repair operations
- Construction sites

Certificate

- Conforms EN 16321 & ANSI 787.1:2020
- Tested as per IS-8521

Auto Darkening Helmet

Model No.: FPSAV-AD

Features:

- Enhance safety
- Optimal visibility
- Reduced eye fatigue
- User friendly operations

Applications:

- Welding operations
- Cutting processes
- Grinding tasks
- Metal fabrication

Certificate

- Manufacturer test certificate
- Product manufactured and Conforms EN 175 & ANSI Z87.1
- Tested as per IS-8521

FG-10 Face Shield

Model No.: FPSAV-ASV

Features:

- Providing face protection against chemical splash, flying objects, grinding chips etc
- Lightweight visor offers high impact resistance
- Optical clear visor provides perfect vision

Applications:

- Industries utilizing sawdust/sand and limestone crushing
- Chemical/ pharmaceutical industries handling volatile fluids
- Refineries/ fertilizers handling hot oil & volatile crude.

Certificate

- Internal test certificate
- Tested as per IS-8521

FG-20 Face Shield

Model No.: FPSAV-FG-20

Features:

- Protection against chemical splashes, flying objects & grinding chips
- Lightweight visor offers high impact resistance
- Optical clear visor ensures perfect vision

Applications:

- Wood and paint industry
- Refineries/ fertilizers handling hot oil & volatile Chemical/ pharmaceutical industries handling
- volatile fluids

Certificate

- Internal test certificate
- Tested as per IS-8521

Gold Visor

Model No.: FPSAV-GV

Features:

- Gold coating reduces glare, enhancing overall performance
- High-impact resistance ensures durability in challenging environment
- Easy installation and adjustment for personalized comfort

Applications:

- Welding
- Laboratory settings
- Construction sites
- Metal working

Certificate

- Compliant with EN 169 and EN 171
- Tested as per IS-8521

Universal Face Shield

Model No.: FPSAV-FSP

Features:

- Easily attachable to any helmet for convenient use.
- Optical clear visor provides perfect vision
- Lightweight with a 1mm thickness of the visor, ensuring high impact resistance

Applications:

- Industries utilizing sawdust/sand and limestone crushing
- Chemical/ pharmaceutical industries handling volatile fluids
- Refineries/ fertilizers handling hot oil & volatile crude.

EAR PROTECTION

Corded Form Earplug

Model No.: EPSAV-C

Features:

- Guard against hearing loss and minimizes sound vibration through the cord.
- Washable & reusable
- Provides a sound noise radio(SNR) / Noise reduction rating(NRR) of 29 dB
- Features an anti-vibrating cord for aded comfort

Applications:

- Industrial plants
- Workshops engaged and noisy operations such as grinding
- Mechanical heavy fabrication sites involving hammering & structural impact noise
- Metal fabrication

Certificate:

- Tested as per EN 352-2

Dispenser

Model No.: EPSAV-JY-030-R-DISPENSER

Features:

- 35 dB noise reduction level
- Crafted with soft PU foam material
- Optical clear visor provides perfect vision
- Contain upto 1000 nos

Applications:

- Manufacturing
- Mining and extraction
- Hunting
- General hearing protection

Certificate:

- Tested as per EN 352-2

Foldable Earmuff

Foldable

Pouch

Model No.: EPSAV-108

Features:

- Durable and lightweight
- Foldable for easy portability
- Soft padding for comfort
- Effective noise blocking and attenuation

Applications:

- Refineries, Fertilizer plants
- Grinding area
- Mechanical fabrication works

Certificate:

- Tested as per EN 352-2

EAR PROTECTION

Safe Fit Reusable Ear Plugs

Model No.: EPSAV-RC

Features:

- SNR/NRR rating of 25 dB.
- Protects against hearing loss and minimizes cord vibrations.
- Washable for multiple uses and cost-effectiveness.

Applications:

- Plants produce high noise from machinery and operations.
- Refineries and fertilizer plants use heavy equipment.
- Workshops generate noise from machinery like grinders.
- Heavy fabrication involves hammering and impact noise.

Certificate:

- Tested as per EN 352-2

Helmet Mounted Ear Muffs Universal

Model No.: BPSAV-FRTS

Features:

- Noise limit is up to 100 dB
- Washable & enabling multiple uses and providing cost-effectiveness
- Boasts an SNR/ NRR rating of 25 dB
- Features an anti-vibrating cord for aded comfort

Applications:

- Workshops experiencing machinery noise during operations like grinding
- Mechanical engineering workshops engaged in activities such as grinding, chipping
- Mechanical heavy fabrication sites involving hammering & structural impact noise

Certificate:

- Tested as pe EN 352

Tough Hat Earmuff

Model No.: HP-THE

Features:

- Durable, lightweight earmuffs with soft, wide cushions for comfort
- Soft padding ensures extended comfort
- Provides high noise attenuation
- Combines multiple PPE functions into a compact unit

Applications:

- Running plants generating high noise due to machinery / Equipments or crackling effect of operations
- Refineries/ Fertilizers etc using heavy process equipment in operations
- Mechanical fabrication works employing hammering and structural impact noise

Certificate:

- Certified by National Physical Laboratory as per IS 6229-1988

- CLI tested for IS 9623:2008 Annex A
- EN 2021:2014

Duo Air Filter

Model No.: RPSAV-CFM2

Features:
- Dual Filtration
- Pressure release valve
- Compact & portable
- Energy-efficient

Applications:
- Offices and workplaces
- healthcare facilities
- Laboratories
- Any indoor environment where clear air is essential for breathing

Certificate:
- Manufacturer's test certificate

Single Air Filter

Model No.: RPSAV-CFM1

Features:
- Sintered bronze
- High efficiency
- Low pressure drop
- Easy maintenance

Applications:
- Residential settings
- Educational institutions
- Hospital industry
- Any indoor environment where clear air
- Essential for breathing

Certificate:
- Manufacturer's test certificate
- PESO- Approved cylinder
- PESO- Approved valves

Airline Kit-Polymer

Model No.: RPSAV-AK

Features:

- Unique combination design
- Extended hose length
- Friction-free breathing hose
- Smooth surface design
- Flow adjust as required

Certificate:

- Manufacture's Test Certificate of whole system
- Face piece as per IS 14166 & EN 136

IS 10245:1999 Part 3
CM/L:-7100117892

Applications:

- Ideal for various industries requiring a reliable and efficient air supply for extended operational activities.
- Confined space
- Prolonged work in hazardous atmosphere in oil and chemical industries.
- Municipal corporations for manning of underground sewage operations.

Airline Kit-Stainless Steel

Model No.: RPSAV-AK

Features:

- Unique combination design
- Extended hose length
- Friction-free breathing hose
- Smooth surface design

Certificate:

- Manufacturer's test certificate of whole system.
- Face piece as per IS 14166 & EN 136
- System as per IS 10245(Part 3):1999

Applications:

- Ideal for various industries requiring a reliable and efficient air supply for extended operational activities.
- Confined space
- Prolonged work in hazardous atmosphere in oil and chemical industries.
- Municipal corporations for manning of underground sewage operations.

Airline Mask

Model No.: RPSAV-FMRB

Features:

- Constant flow respirator
- Reinforced air hose
- Air intake
- Easy operation
- 5 point head

Certificate:

- Manufacturer's test certificate

IS 14166
CM/L-7300127004

RESPIRATORY PROTECTION

Blast Air

Model No.: RPSAV-SBH

Features:

- Adjustable airflow
- Versatile belt
- Ear defender compatibility
- Adjustable regulator
- Low pressure warning whistle
- Half coverage front bag

Applications:

- Shot blasting process industries.
- Grit blasting process applications in any industry.
- Automobile and capital equipment manufacturing.

Certificate:

- Manufacture's Test Certificate of whole system
- EN 271

Fresh Air

Model No.: RPSAV-FABS

Features:

- Waist-mounted regulator
- Lightweight & compact
- Complete safety solution
- User friendly
- Antistatic material of hood
- Chemical protected visor

Applications:

- Dyes and intermediates
- Refineries
- Pharmaceuticals
- Chemical & petrochemical industries

Certificate:

- Internal test certificate

Paint Air Fed Painting Hoods

Model No.: RPSAV-AFPH

Features:

- Flame retardant
- Adjustable belt
- Disposable visor
- Flammability
- Available with safety helmet

Applications:

- Paint spraying and finishing
- Automotive painting
- Construction & maintenance painting
- Aerospace industry

Certificate:

- EN - 14594

Nylon PU Coated Gloves

Model No.: HPSAV-C1

Features:

- Economical solution for light duty applications
- Elasticised knitted wrist
- Cut and abrasion resistant

Applications:

- Assembling small parts
- General handling tasks
- Packaging operations

Certificate:
EN 388:2016
4131X

Nylon Nitrile Gloves

Model No.: HNP-NNC

Features:

- 13G white nylon liner
- Grey nitrile palm coating
- Breathable open-back design
- Comfortable knit wrist
- Good abrasion and tear resistance

Applications:

- Automotive assembly
- Machinery and equipment handling
- Metal fabrication

Certificate:
EN 388:2016
4131X

Grip | Dexterity | Cut Resistant | Oily Environment | Abrasion

Cotton Latex Coated Gloves

Cut

Model No.: HNPSAV-C2

Features:

- Tough and cut-resistant.
- Knitted liner for better fit and flexibility.
- Rubber coating for strong protection.
- Knitted liner for better fit and flexibility.

Applications:

- Automotive sector
- Building & Construction
- Machinery & Equipment
- Agriculture & Viticulture

Certificate:

- Tested as per EN 388:2016
- Tested as per EN ISO 374-1:2016 + A1:2018 & EN ISO 374-5:2016
- Tested as per EN ISO 21420:2020

Neo Chem Gloves

Model No.: HNPSAV-NEC

Chemical

Features:

- Sturdy material with excellent impact resistance
- Blend of nylon and spandex
- Gauntlet cuff style
- Superior abrasion resistance ensures prolonged usage and enhanced durability

Applications:

- Automotive sector
- Chemical sector.
- Mining, Oil and gas sector
- Maintenance and operations

Certificate:

- EN 388:2016(4142A)
- EN ISO 374-1:2016 Type A
- EN ISO 374-5:2016

Chem Pro Extra Gloves

Model No.: HPSAV-CPE

Features:

- Chemical-resistant for wet & dry use
- Ideal for harsh chemical handling
- Reusable design
- Length: 455 mm

Applications:

- Automotive
- Metal Fabrication
- Construction
- Chemical Industry

Certificate:

Chem Pro Gloves

Features:

- Cut & sewn construction
- Gauntlet cuff style
- Regular & split leather
- Extended wrist & forearm protection

Applications:

- Foundries, Furnaces & Kilns
- Molding Shops
- Heavy Fabrication
- Metal & Lathe Operations

Certificate:

EN 388:2016 4314 | EN 407:2004 2244X

Welder Plus Gloves

Chemical

Model No.: HPSAV-WP

Features:

- Cotton lining for comfort & insulation
- Gauntlet cuff style
- Heat, flame & spark resistant
- Ideal for Stick & MIG welding

Applications:

- Hot Parts Handling
- Metal Grinding
- Stick & MIG Welding
- Torch Cutting

Certificate:

EN 388 4244X | EN 407 412X3X

Heatstar Aluminized Aramid Gloves

Heat

Model No.: HPSAV-HS-ALK

Features:

- Light weight
- Aramid grip
- Cut and abrasion resistant
- High tensile strength

Applications:

- Welding industry
- Metal extrusion
- Metal smelting
- Other high temperature working environment

Certificate:

EN 407:2004 44434

Flame Heat Resistant Gloves

Heat

Model No.: HNPSAV-FHR

Features:

- Premium gloves for high-heat applications
- 100% Para-Aramid for cut, tear, and abrasion resistance
- Soft, absorbent, and comfortable in hot conditions

Applications:

- Metal fabrication
- Glass
- Automative

- Mining
- Automotive

Aluminuzed Gloves

Model No.: HNPSAV-AL

Heat

Features:

- Made from premium materials for high durability
- Protects hands up to 1200°C
- Excellent for fire proximity and molten metal splash
- Ideal for steel, fire fighting, and high-temp work

Applications:

- Metal fabrication
- Glass
- Automative

Supreme Gloves

Model No.: HPSAV-SHP

Heat

Features:

- Made from durable yellow split leather
- Extended cuff protects forearm
- Comfortable for general use
- Resists cuts, punctures, and abrasions

Applications:

- Public utilities
- Machinery & equipment
- Metal fabrication
- Glass

Grip Strong Gloves

Model No.: HNPSAV-GS

General Purpose

Features:

- Ideal for TIG welding, grinding, brazing, and metalwork
- Durable grain leather with para-aramid stitched seams
- Comfortable, protective, and cost-effective

Applications:

- Aerospace
- Machinery & equipment
- Metal fabrication

Certificate: EN 388-2122

Sterile Surgical Gloves

Model No.: HPSAV-SL

Features:

- Elbow-length (400 mm) for added upper arm protection
- Soft natural latex for comfort and fit
- Improved cuff prevents roll-down
- Powder-free and packed in polybags for product integrity

Applications:

- Food processing & service
- Recycling
- Janitorial services
- Pharmaceuticals & Life science

Certificate:

- EN455 AQL 1.0/1.5

ASTM INTERNATIONAL

Advantage Nitrile Gloves

Model No.: HPSAV-AN

General Purpose

Features:

- Thin nitrile for better comfort and flexibility
- Good grip in dry, wet, and fatty conditions
- Safe for food contact
- Textured fingertips for improved handling

Applications:

- Pharmaceuticals & Life science
- Public Utilities
- Food Processing & Services
- Automotive

Certificate:

EN ISO 21420:2020

Cryogenic Gloves

Model No.: HNPSAV-CRYO

Cold

Features:

- Water-repellent silicone cowhide grain leather
- Double-lined with aluminium and fleece for cold & heat protection
- Flexible even at low temperatures
- Reinforced thumb-index area for added durability

Applications:

- Oil & Gas
- Cold storage
- Nitrogen industry
- All oxygen industry

Certificate: EN 388:2016 4221, EN 511-321

Chemi Flex Latex Gloves

Model No.: HNPSAV-CFL

General Purpose

Features:

- Medium weight latex with chemical resistance.
- Made from 100% natural rubber for high sensitivity and strength
- Gauntlet cuff style

Applications:

- Maintenance
- Pharmaceutical & Life Science
- Building & Construction
- Janitorial Service

Certificate: EN 388:2003 1121, EN 374-2:2003

Sure Grip Gloves

Model No.: HPSAV-SG

General Purpose

Features:

- Length: 220-270 MM
- Made from polyester plated with cotton
- Durable, heavier construction
- Ideal for tough applications

Applications:

- Logistics & warehousing
- Building & construction
- Machinery & equipment
- Metal fabrication

Certificate: EN 388:2003 214X

All Wear Gloves

Model No.: HPSAV-AW

General Purpose

Features:

- Superior grip in palm area
- Reinforced thump
- 260 mm length
- Safely cuff style

Applications:

- Glass
- Building & Construction
- Metal fabrication
- Automative

Chemguard Suit

Model No.:BPSAV-BCGSGS

Features:

- Protection against strong acid and alkalis
- Organic combination of high performance polythylene film and polypropylene polymer
- Double layer zipper

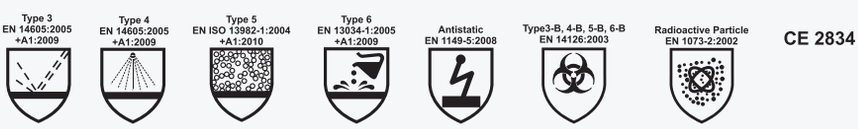

Applications:

- Research labs
- Nuclear industry radioactive particles and dust prevention

Seamsealed

Certificate:

Saviour Chemguard Plus

Model No.: BPSAV-BCGSPS

Features:

- High-performance PE film + PP polymer fabric.
- Protects against acids, alkalis, chemicals, and biological hazards.
- Bright yellow colour improves visibility.
- Heat-sealed seams provide better liquid protection
- Double-layer zipper enhances safety.

Applications:

- Research labs and biological hazard areas.
- Nuclear dust and radioactive particle protection.
- Chemical, petrochemical, biochemical, and fertilizer industries.

Inherent Fire Retardant Suit

Model No.: BPSAV-IFR

Features:

- Heavy duty, two way zipper with concealed design
- Reinforced stitching for enhanced durability.
- Comfortable & better breathability & light weight
- Fire retardant reflactive tap
- Blends : 93/5/2
- Blends : 49/49/1

Applications:

- Oil and gas industry
- Electrical utilities
- Welding & Metal working
- Emergency response teams

Certificate:

EN ISO 11612:2015 A1, A2, B1, C1,F1

IS 15748:2022 A1, A2, B1, C1,F1

Fire Retardant Suit

Model No.: BPSAV-FRTS

Features:

- Comfortable fit & flexibility
- Durable construction
- Reinforced stitching
- Breathable

Applications:

- Petrochemical plants
- Construction site
- Electrical utilities
- Other high risk environment requires flame resistant protective clothing

Certificate:

EN ISO 11612:2008 A1, A2, B1, C1,F1

IS 15748:2022 A1, A2, B1, C1,F1

FR Demin Jacket & Trouser

Model No.: BPSAV-DFS

Features:

- Protects against flame and metal splash
- Durable denim fabric for long-lasting performance.
- Reducing burn injury risk
- Reinforced stitching and knees for enhanced durability.

Applications:

- Welding & mechanical uses
- Construction sites
- Oil and gas industry
- Electrical utility

Fire Entry Suit (Close Proximity)

Model No.: BP-FS-JTL

Features:

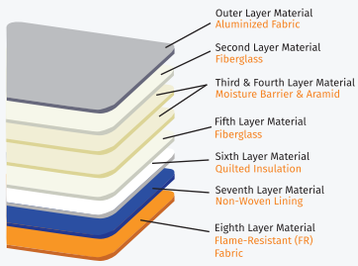

- Head to toe coverage
- 8 layer construction for exceptional protection
- Stitching with aramid thread.
- Duffle bag and GI case
- Gold Plated visor to protect eyes fro hig shining

Certificate:

- NABL tested for EN 1486:2008

Applications:

- Firefighting and rescues near intense heat and flames.
- Petrochemical, oil, gas, and manufacturing facilities.

Aluminized Aramid Suit

Model No.: BPSAV-AALS5

Features:

- Five layers suit
- Aramid thread stitching
- Duffle bag packaging
- This suit offers exceptional safety, comfort and durability for workers in demanding industrial environment.
- High heat resistant

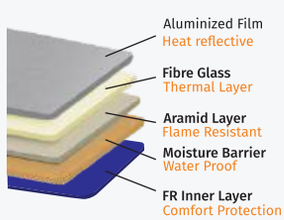

Certificate:

- Tested as per ISO 11612

EN ISO 11612:2015
A1, A2, B1, C1, E3, F1

Applications:

- Foundries & metal casting operations.
- Welding & cutting operations
- Firefighting & emergency response

4 Layer Aluminized Suit

Model No.: BPSAV-ALS4

Features:

- Reinforced seams enhance strength and durability.
- Front zipper allows easy don and doff.
- Four-layers design balances heat protection and comfort.
- Elastic hood ensures secure fit

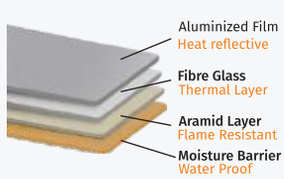

Certificate:

- Tested as per ISO 11612

Hot Oil Steam Suit

Model No.: BPSAV-HOSS

Features:

- Withstands up to 300°C and 12 bar positive pressure
- Reinforced stitching for long-lasting use
- Ergonomic, adjustable fit for flexibility
- Ideal for industrial settings with heat and steam
- Elastic waste to ensure secure fit.

Applications:

- Petrochemical refineries
- Chemical plants
- Power generation facilities
- Oil and gas industry

Lightweight Whole set: 4.7 kg only

Steam strength up to temperature 350 degree

Certificate:

- Witness By Notified body : Hot Oil at 300° C & Steam at 12 bar

Chemair Suit (Pressure Suit)

Model No.: BPSAV-CA

Features:

- Advance chemical resistant
- Biological barrier
- Washability
- Ergonomic fit
- Resistance & Chemical
- Double zipper
- Cool air provided with votex

Applications:

- Chemical handling
- Biological safety
- Industrial safety

FIRE MARSHAL KIT

Fire Resistant Jacket & Pants

Model No.: BPSAV-FS-BIS

Features:

- Excellent wicking performance
- Outer shell treated with water repellent finish
- Front zip closure under flap
- Three-layer aramid, moisturized thermal barrier

Applications:

- Airport, marine, and oil & gas firefighting units
- Civil defense and disaster management operations
- Factories, warehouses, and refineries
- Firefighting operations in industrial, commercial, and residential settings

Certificate:
IS 16890
CM/L:-7300131001

Heat Resistant Gloves

Model No.: BP-FGH

Features:

- Fire-retardant Nomex outer shell
- Aramid felt thermal lining
- Soft Aramid / viscose inner layer
- 3M reflective strips for visibility
- Available sizes: L, XL, XXL

Applications:

- Airport, marine, and oil & gas firefighting units
- Civil defense and disaster management operations
- Factories, warehouses, and refineries
- Firefighting operations in industrial, commercial, and residential settings

Certificate:
BS EN 659:2003
FAL:2008

Fire man Helmet- Fire Pro

Model No.: HPCON-CFY

Features:

- Strength & durability
- Thermal insulation
- Longevity
- Water, electrical and chemical resistance

Applications:

- Airport, marine, and oil & gas firefighting units
- Civil defense and disaster management operations
- Factories, warehouses, and refineries
- Firefighting operations in industrial, commercial, and residential settings

Certificate:
IS 2745
CM/L:7100127693

Fire Resistant Boots

Model No.: BP-FGB

Features:

- Durable, cut-resistant vulcanized rubber sole
- Cleated outsole for maximum grip in wet and oily conditions (SRC)
- Fuel- and oil-resistant sole
- Protection against flame and radiant heat (20 kW/m²), with sole insulation at 250°C for 40 minutes

Applications:

- Airport, marine, and oil & gas firefighting units
- Civil defense and disaster management operations
- Factories, warehouses, and refineries
- Firefighting operations in industrial, commercial, and residential settings

Certificate:

- EN 15090:2012

- PPE Regulation (EU) 2016/425, 2014/90/EU – MED/3.4

Fire Fighter Storage Bag

Model No.: BP-FMKB

Features:

- Large main compartment with zippered pockets
- Reflective trim, ID holder & embroidery flap for customization
- Adjustable padded shoulder strap with metal clips
- Quick-dry, easy to clean

Balaclava

Model No.: BP-FHB

Features:

- Nomex, rib knitted fabric
- Full-faced, lightweight, double-layer knitted balaclava
- Flame resistant
- Highly moisture absorbent
- Extended bib, back and shoulder flares

Applications:

- Airport, marine, and oil & gas firefighting units
- Civil defense and disaster management operations
- Factories, warehouses, and refineries
- Firefighting operations in industrial, commercial, and residential settings

Certificate:

12 Cal Arc Kit

Model No.: BPSAV-ARCKIT-12

Features:

- Made from inherent flame-retardant material.
- Long-lasting, permanent flame-retardant properties.
- Non-ignitable in normal oxygen levels.
- Improved breathability and comfort.

Applications:

- Underground applications
- Electrical panel
- Breaker room maintenance
- Electrical vehicles

Certificate:

Electrical Rescue Hook

Model No.: BPSAV-ERH

Features:

- Lightweight & Portable
- Robust and sturdy
- Length is 6 feet & 18 feet
- Shock resistant

Applications:

- Electricity boards, Switch gear industries
- Fertilizers & refineries
- Municipal corporation
- Electrical maintenance contractor

Certificate:

- ERDA test report: Complies to ASTM F711 for standard specification for fiberglass- Reinforced plastic(FRP) rod and tube used in live line tools

Electrical Discharge Rod

Model No.: BPSAV-EDR

Features:

- Made from inherent flame-retardant material.
- Long-lasting, permanent flame-retardant properties.
- Multiple pockets for convenient storage
- Higher TPP scores than treated fabrics.

Applications:

- Electric vehicle
- Facility electrical work etc
- Plan shut down

ELECTRICAL SAFETY

Electrical Gloves

Model No.: HNPSAV-Class 00 to 4

Features:

- Crafted from 100% natural rubber
- Smooth finish hand-at-rest shape and non splayed fingers
- Internal Test Report(IRT) provided
- Provided with individual innovative packaging

Applications:

- Electricity boards, Shopping mall, All industries
- Power generating stations, Railways, Airports

Certificate:

- Meets ERDA IS 13774:2021
- IEC 60903:2014
- (Live working gloves of insulating material

Electrical Over Gloves

Model No.: HPSAV-HG-OC

Features:

- Worn over latex electrical gloves for added protection
- Made from durable cowhide split leather
- Double-stitched for extra strength
- Long wrist design for extended coverage

Applications:

- Electrical maintenance and live-line work
- Enhances safety during high-voltage operations
- Suitable for tasks requiring both electrical and mechanical protection

Certificate:

EN 388-4233

11 Cal Arc Face Shield & Helmet

Model No.: BPARC-ASK11

Features:

- Best vision
- True colour
- UV filter
- Anti scratch
- Available in 11/14/18 cal

Applications:

- Electrical utility work
- Construction sites
- Industrial manufacturing
- Electrical maintenance add repair

Certificate:

- EN 16321
- ANSI / ISEA Z87.1-2015
- ASTM F2178-17b

40 Cal Arc Visor

Model No.: Arcshield kit 40 CAL

Features:

- Premium anti-fog coating for improved visibility
- Highly transparent for easy attachment to hoods
- Velcro patterns for easy attachment to hoods
- Dual-pane construction for increased durability and protection

Applications:

- Industrial manufacturing
- Electrical maintenance and repair
- Construction site
- Any environment with potential arc flash hazards

Certificate:

- NFPA 70E
- ANSI Z87.1
- ASTM F2178

DI Electrical Boots

Model No.: HPSAV-HG-OC

Features:

- Adjustable height
- Step voltage protection up to 35kV*
- Cold insulation
- Fuel and oil resistant

Applications:

- Power generation and distribution
- Electric and hybrid vehicle
- Electrified transport systems such as the railways

Certificate:

- EN ISO 20345:2022
- EN 50321-1:2018 Class 2 AC
- ASTM F1117 (200kV)
- ASTM 2413 EH (18kV)

RESPIREX™

Dielectric HV3 Class 3 Boots

Model No.: HPSAV-HG-HV3

Features:

- 35kv Electrical Protection
- Arc Flash Resistant
- 200j Steel Toe Cap
- Slip-resistant Grip Sole
- Lightweight & Comfortable Design

Applications:

- Electrical utility work
- High voltage maintenance
- Power plant operations
- Industrial electrical safety
- Arc flash hazard environments

Certificate:

- EN ISO 20345:2011 Certified
- EN 50321-1:2018 Class 3 Approved
- ASTM F1117 Certified
- ASTM F2621 Arc Flash Tested
- CE Marked & REACH Compliant

RESPIREX™

Fume Exhauster Cum Air Blower

Model No.: FUMEX X-3000ED

Features:

- Adjustable port ensures flexible air delivery.
- Hose attachments extend reach to distant areas.
- Anti-vibration base with lockable castors.
- 6.5 HP petrol engine with coated impeller for durability.

Applications:

- Industrial Segments
- Laboratories
- Manufacturing facilities
- Mining Operations

Certificate:

- Manufacturer's Test Report and Demo CD provided.

Fume Exhauster 3000 FP

Model No.: VESAV-FUMEX-3000FP

Features:

- Flameproof Design
- Adjustable Port
- High air flow rate
- Versatile power supply
- Equipped with anti vibration pads

Applications:

- All Industrial sectors
- Ideal for use battery area within gas and oil refineries
- Utilized by civil defence and fire brigade teams
- Designed for applications involving confined space entry

Certificate:

- Manufacture's Test Certificate
- PESO Approval for Motor
- ERTL Approval for starter

Lion Single Density Shoes

Model No.:FTSAV-SIM

Features:

- Oil Resistant
- Antiislip
- Stell toe cap
- Antistatic

Applications:

- Carpentry work
- Utilization in the mechanical industry
- Handling abrasive and sharp-edged materials
- Suitable for the automotive industry & more

Certificate

- Tested as per IS 15298 (Part 2):2024

Lion Dual Density Shoes

Model No.: FPSAV-SIM

Features:

- Slip resistant
- High durability and flexibility
- Heat resistant up to 120 degree
- Shock-absorbing heel

Applications:

- Construction site
- Oil and gas
- Automotive industry
- Industrial work environment

Certificate

- Tested as per EN/ ISI Standard (Manufacturing certificate)

Lion Single Density High Ankle Shoes

Model No.: FPSAV-SDH

Features:

- Designed for enhanced support
- Soft and tough sole
- Hard toe
- Extended ankle coverage to reduce risk of sprains

Applications:

- Carpentry work
- Automotive industry
- Mechanical industry
- General handling of abrasive and sharp edged material

Chlorine Kit-100Kgs

Model No.: CL2-SAV-100

Features:

- Side-mounted chlorine valve for gas diversion.
- Corrosion-resistant, lightweight, and portable.
- Complete with PPE set
- Single man handling
- Includes EN-approved PPE set.

Applications:

- Chemical industry
- Municipal corporations
- Ice factories
- Annealing plants

Certificate

- Manufacturer's Test Report and Demo CD provided.

Chlorine Kit-900Kgs

Model No.: CL2-SAV-900

Features:

- Includes EN-approved PPE set.
- Single-person operation with secure clamps.
- Stored in a partitioned metal box for protection
- Designed for single-person operation.

Applications:

- Ice factories
- Annealing plants
- Chemical industry
- Municipal corporations

Certificate

- Manufacturer's Test Report and Demo CD provided.

Emergency Chlorine Neutralizing System

Model No.: CL2-SAV-NUT

Leaked Chlorine Neutralizing system with Fix Gas Detection System Having Two Chlorine Sensors. Design, Fabrication, supply, Erection & commissioning of chlorine leakage neutralizing system. The system will operate automatically in case of chlorine leak from container / system is consists of FRP hood with sensor mounted inside the hood, FRP caustic holding tank, FRP absorption tower, centrifugal blower, centrifugal pump, FRP ducting, FRP piping, Electrification & Instrumentation etc.

GAS DETECTION

Advanced Gas Compact

Model No.: GDSAV-K60

Features:

- 90 dB audible vibration alarm
- Lightweight and compact design
- Bright red flashing visual alarm
- Cost effective
- Portability
- Sampling method diffusion type

Applications:

- Safety monitoring
- Emergency response
- Process control
- Confined space entry

Certificate: CE APPROVED

Gas Advanced Compact (Inbuilt Pump)

Model No.: GDSAV-K60-V

Features:

- Reliable sensor technology with long service life
- Clear monitoring with color LCD display
- Robust 90dB alarm system for immediate notification
- Sampling method inbuilt (pump)

Applications:

- Roof shades
- Protecting workers while moving across
- Construction sites
- Industrial plant maintenance

Certificate:

- Electromagnetic compatibility 2014/30/EU/ EN 61326-1:2013
- Tested by notified body

CE APPROVED

Gas Fast

Model No.: GDSAV-AG210

Features:

- Offers smoke and gas tightness.
- 12 months shelf life.
- During time is 48-72 hours.
- Dual Swing Arms for two evacuations.

Applications:

- Oil, Gas and solvents industries
- Confined spaces
- Fire and rescue operations
- Food and beverages

Certificate:

- Compliance Ex db IIC T6 Gb
- Tested by notified body
- ATEX approved

Wall Mounted-Stand Alone Gas Detector

Model No.: GDSAV-AG210

Features:

- Can be used for over 300 combustible and toxic gases
- Maintenance free, Easy to use
- Light in weight and IP of 65 add to the advantage
- Sampling method: Diffusion type

Applications:

- Confined spaces
- Fire and rescue operations
- Food and safety department

Certificate:

PVC Welding Blanket

Model No.: PFSAV-WBS

Features:

- Coating improves durability, water resistance, and dust repellence
- Protects against sparks, welding spatter, and moderate heat exposure
- Coating improves tear resistance, abrasion resistance, and mechanical strength

Applications:

- Emergency response- Firefighters & first responders
- EV charging infrastructure & parking facilities
- Vehicle storage, fleets & transport hubs
- Automotive repair shops & services centers
- Industrial & ferry transport use

Certificate

- Standard: Tested as per ISO 25980 – Health and Safety in Welding and Allied Proces ses

Silicon Welding Blanket

Model No.: PFSAV-RHB-SI

Features:

- Dual-Sided Silicon Coating
- High Temperature Resistance
- Excellent Thermal Insulation
- Fire Retardant
- Flexible and Lightweight
- Reinforced Edges
- Fiber glass Fabric

Applications:

- Kitchens
- Hotels
- Shopping malls
- Frame & Repair work
- Welding and cutting operations in fabrication shops, manufacturing plants, construction sites, and automotive repair facilities.
- Protection for personnel, equipment, and surrounding surfaces during welding, grinding, and other hot work activities.
- Heat shields and barriers for confined spaces, machinery, and sensitive components in industrial settings.

Certificate

- Tested as per ISO 25980

FALL PROTECTION

Model No.: FP-SV-FBH-16

Features:

- Dorsal D-Ring Fall Arrest
- Adjustable Chest & Thigh Straps
- Ergonomic Fit for All-Day Comfort
- Durable Polyester Webbing
- Lightweight & Easy to Wear
- Dual-Colour Strap Design

Applications:

- Construction Sites
- Scaffolding Work
- Tower & Telecom Maintenance
- Roofing & Facade Work
- Industrial Maintenance
- Confined Space & Elevated Work

Certificate

- IS 3521:1999 Class A
- Complies with Indian Standard for Full Body Harnesses

Model No.: FP-SV-FBH-18

Features:

- Twin Chest D-Rings for Tower Climbing
- Dorsal D-Ring for Fall Arrest
- Adjustable Chest & Thigh Straps
- Dual-Colour Strap Identification
- Ergonomic Sit Strap for Extended Comfort
- High-Strength Polyester Webbing

Applications:

- Tower Climbing
- Fall Arrest
- Telecom & Utility Maintenance
- Construction & Scaffolding
- Industrial Maintenance
- Elevated Work Areas

Certificate

- IS 3521:1999 Class L
- Complies with Indian Standard for Full Body Harnesses

Model No.: FP-SV-FBH-44

Features:

- Chest & Dorsal D-Rings for Fall Arrest
- Dual Lateral D-Rings for Work Positioning
- Adjustable Shoulder, Waist & Leg Straps
- Dual-Colour Strap Identification
- Ergonomic Sit Strap for Extended Comfort
- Durable Full Body Harness Design

Applications:

- Fall Arrest
- Work Positioning
- Construction & Scaffolding
- Tower & Telecom Work
- Industrial Maintenance
- Elevated Work Areas

Certificate

- EN 361:2002 – Full Body Harness
- EN 358:2000 – Work Positioning Belt & Lanyard System

FULL BODY HARNESS

SAVIOUR®
Performing PPE

Model No.: FP-SV-FBH-56

Features:

- 1 Dorsal & 1 Sternal D-Rings
- 1 Ventral D-Ring for Rope Access
- 2 Lateral D-Rings for Work Positioning
- Adjustable Shoulder, Waist & Leg Straps
- Soft Padding for Maximum Comfort
- Multi-Purpose Full Body Harness

Applications:

- Fall Arrest
- Rope Access
- Work Positioning
- Rescue Operations
- Tower & Telecom Work
- Construction & Industrial Maintenance

Certificate

- EN 361:2002 – Full Body Harness
- EN 358:2000 – Work Positioning Belt
- EN 813:2008 – Sit Harness / Rope Access

Model No.: FP-SV-JSB

Features:

- Adjustable chest, shoulder and thigh straps
- Multiple pockets for safe tool storage
- Dorsal D-ring for fall arrest
- Dual-colour straps for easy identification

Applications:

- Construction work
- Industrial maintenance
- Scaffolding and roofing
- Work at height

Certificate

- EN 361:2002

Lanyards

Model No.:FP-FBRL-341A

Features:

- Made of Polyamide Braided Rope (Dia 12mm)
- Length of 1.5 m, 1.8 m, 2.0 m
- Equipped with : 1 Karabiner
- 1 Energy Absorber
- 2 Rebar Hooks

Certificate :

- Conforms to EN 355:2002

Model No.:FP-FBRL-351

Features:

- Made of 3-strand, 12 mm diameter twisted polyester rope.
- Length of 1.5 m, 1.8 m, 2.0 m
- Equipped with : 1 Karabiner
- 1 Energy Absorber
- 2 Rebar Hooks

Certificate :

- Conforms to EN 355:2002

Hooks

Model No.:RV-TH-132

TOWER HOOK

- M – Alloy Steel
- O – 85 mm
- W – 850 gm
- FA – Silver/ Golden Yellow Galvanized
- C – EN 362:2004 Class T

Model No.:RV-141

ANCHORAGE HOOK

- M – Stainless Steel
- O – 140 mm
- MBS – 23 kN
- W – 365 gm
- C – EN 362:2004 Class A

Model No.:RV-SH-131

SCAFFOLD HOOK

- M – Alloy Steel
- O – 50.8 mm
- MBS – 23 kN
- W – 473 gm
- FA – Silver/ Golden Yellow, Galvanized Golden Yellow Galvanized
- C – EN 362:2004 Class T

Model No.:RV-TAL-119T

TOWER HOOK

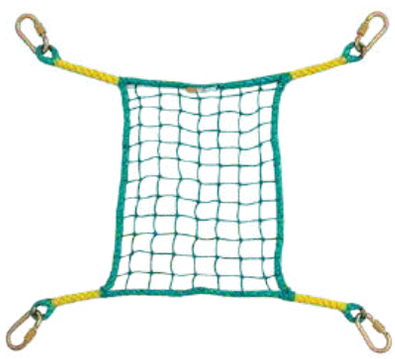

- M – Alloy Steel
- O – 16 mm
- MBS – 23 kN
- W – 190 gm
- FA – Silver/Golden Yellow Galvanized
- C – EN 362:2004 Class B

FALL PROTECTION

Safety Net

Model No.: FPSAV-SN

Features:

- Adjustable straps
- UV & abrasion-resistant material
- Rust-proof, high-tenacity webbing
- High-tenacity webbing, extended shelf life

Applications:

- Construction site
- Manufacturing factories
- Oil and gas refineries
- Heavy industries

Certificate: IS 11057:1984 — CM/L:-7100121277

Safety Net 2 Layer

Model No.: FPSAV-SND

Features:

- Effective as physical barriers at midpoints of falls
- Can be used as primary or secondary arrest system
- Extremely economical compared to other system

Applications:

- Construction industry
- Maintenance and repair
- Roofing installer
- Working at height

Certificate: IS 11057:1984 — CM/L:-7100121277

Single & Double Tool Lanyard

Single Tool Lanyard

Double Tool Lanyard

Model No.: FP-HRES

Features:

- Durable 16 mm elastic webbing
- Compact 85 cm relaxed length
- Extends up to 135 cm
- Supports tools up to 10 kg

Applications:

- Construction and scaffolding
- Tower maintenance
- Industrial work at height
- Tool drop prevention

Certificate:

- Manufacturer's Test Report

Suspension Trauma Strap

Model No.: FP-HRES

Features:

- Quick and easy deployment
- Lightweight and compact design
- Adjustable foot loop
- Attaches easily to the harness

Applications:

- Work at height
- Construction and scaffolding
- Tower maintenance
- Emergency fall rescue

Certificate:

- Manufacturer's Test Report

FALL PROTECTION

Complete Safety Solutions

SAVIOUR®
Performing PPE

Fall Arrestor Block

Model No.: FP-FAB

Features:

- Lightweight and easy to use
- Compact but strong
- Swivel movement for flexibility
- High load capacity
- Available in 6 Meter, 10 Meter and 20 Meter

Applications:

- Confined Space Entry
- Vessel Entry
- Oil & Gas segments
- Construction Industry

Certificate

- Conforms EN 360

High Rise Escape System

Model No.: FP-HRES

Features:

- Bracket anchor with a 1-meter swing arm.
- Supports dual Swing Arms for two evacuations.
- Wall Bracket: Three 1/2" Grade 8 anchors.
- Dual Swing Arms for two evacuations.

Applications:

- Ensures safe high-rise rescue and evacuation.
- Wall Bracket blends with building decor.
- Cost-effective, installable on both sides.
- Swing Arm and CDD relocate for safety.

Certificate

- Internal test certificates and material test certificates for the metallurgy used are provided.
- A certificate for the fabric of the bag detailing its fire-retardant properties is available upon request.

Rope Grab

Automatic Locking | Locking Position Allow Manual Locking | Fall Arrester come with the unique Anti-Gravity Locking System

Model No.: FP-HRES

Features:

- Automatic fall-locking mechanism
- Manual position-locking option
- Double-security locking system
- Easy attachment and removal

Applications:

- Work at height
- Roofing and construction
- Tower and ladder climbing
- Industrial maintenance

Certificate:

- EN 353-2:2002

Lifelines

Model No.: FP-HRES

Features:

- Strong twisted polyester construction
- 14 mm Option
- Karabiner fitted at one end
- Available from 10m,20m,30m, 40m & 50m

Applications:

- Work at height
- Roofing and construction
- Tower maintenance
- Rope-grab fall-arrest systems

Certificate:

- EN 353-2:2002 system compatibility, when used with an approved rope grab.

FALL PROTECTION

Tripod With Winch

Model No.: FG-FP-FA-OT-0014

Features:

- SS Eye bolts
- Telescopic legs
- Provide tripod bag for storage & transport
- Anti-slip, abrasion-resistant shoes

Applications:

- Confined space
- Sewage system
- Man-holes
- Wells

Certificate

- Conforms Tripod: EN 795:2012 TYPE B
- Conforms Winch: EN 1496:2017 (Class A)

Davit System

Model No.: FP-DVT2

Features:

- 5-piece system for easy mobility.
- Davit arm swivels 135° and detaches.
- Lightweight, corrosion-resistant
- Anti-slip, abrasion-resistant shoes

Applications:

- Confined space entry/ Excavations
- Oil & gas segments
- Vessel entry, Silos & tower
- Landfill protection / Construction industry

Certificate

- Conforms Winch: ANSI Z359.4-2013 & EN 1496:2006A & EN 1496:2017A
- Conforms Harness: Meets EN 361/358 or IS 3521:Part 1:2021
- Conforms Retractable fall arrester: EN 360:2023

360 degree Rotational Anchor System

Model No.: FPSAV-SRFAS

Features:

- 360 degree rotating
- Can carry 200 Kg weight
- Extended height 6 M
- Adjustable height up to 20 feet

Applications:

- Loading & Unloading of material shifting
- Use in open area

Certificate

- Manufacturer test Certificate.
- Fall arrester EN and ANSI certificate.

Giant Protective Anchor System

Model No.: FPSAV-SGPAS

The SAVIOUR Giant Protector Anchor is a mobile overhead fall arrest anchorage system for vehicle and industrial work. It replaces fixed overhead anchor setups and is easy to move, assemble, and use at different locations.

Features:

- Quick and easy overhead fall arrest connection.
- Mobile design reduces need for fixed heavy structures.
- Lightweight compared to similar systems, approx. 520 kg.
- Adjustable mast height from 14 ft to 20 ft.

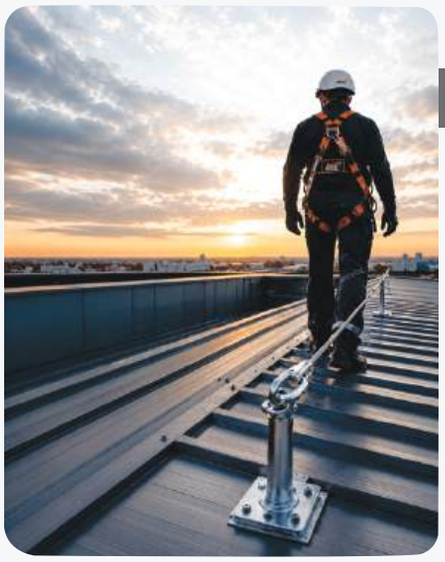

FALL PROTECTION

Horizontal Fall Protection System

Model No.: RPSAV-AK

Features:

- SS 316 material
- 20 years life span
- Operating temperature -40°C to +60°C
- Consists of a flexible cable

Applications:

- Roof shades
- Protecting workers while moving across
- Construction sites
- Industrial plant maintenance

Certificate

- As per ISO 16024:2005
- IS 3521 - Part 8:2021

IS 3521-(Part 8):2021
CM/L:-7100155193

Vertical Lifeline System

Model No.: FXFP-VLS

Features:

- 100% positive locking
- Corrosion free system
- Virtually no maintenance
- Continuous movement with complete fall protection

Applications:

- Ladders
- Wind mills
- FM Tower
- Television transmission tower

Certificate

- EN 353-1-2014+A1:2017

Overhead Lifeline System

Model No.: FXFP-OLS

Features:

- SS 316 material
- Operating temperature -40°C to +60°C
- A shock absorber reduces impact on the worker and structure.
- The Overhead Lifeline System ensures worker safety in high-risk areas.

Applications:

- Vehicle bays
- Crane tracks
- Warehouse
- Aircraft hangars

Certificate

- As per ISO 16024:2005

IS 3521-(Part 8):2021
CM/L:-7100155193

FIRE PROTECTION

Fire Stop Barrier (Mortar)

Model No.: FPSAV-FSM

Features:

- Offers smoke and gas tightness.
- 12 months shelf life.
- During time is 48-72 hours.
- Dual Swing Arms for two evacuations.

Applications:

- Industries, Buildings
- Walls, Cable galleries
- Floor cut-outs in building/ rooms
- Warehouse, Cable vaults

Certificate:

- Certified by NABL
- Tests Passed: Fire rating test for three(3) hours with impact test, Accelerated ageing test, Water absorption test, Vibration test and hose stream test.

Firecoat (FR Coating for Electrical Cable)

Model No.: FPSAV-FRCEC

Features:

- Water-based, prevents fire spread along cables.
- 30-60 minutes drying time
- Halogen/asbestos-free, maintains cable function.

Applications:

- Roof shades
- Protecting workers while moving across
- Construction sites
- Industrial plant maintenance

Certificate:

- Conforms to IS:10810 part 53/ IEC:60332
- Fire Survival: Passes IEC-60331
- Fire Retardancy: Passes IEC- 60332/ IEEE-383
- Flexibility/ Adhesion: Compliant with IS-101
- Toxicity: Compliant with IEC-60754
- Limiting Oxygen Index(LOI): Compliant with ASTM-D 2863.

Rapid Fire Fighting and Emergency Bike

Model No.: FPSAV-BSW

Features:

- Water tank
- Air Cylinder
- Hose reel
- Extinguishing Gun

Applications:

- Ladders
- Wind mills
- FM Tower
- Television transmission tower

FIRE PROTECTION

Spider EV Fire Suppression System

Model No.: FPSAV-VE

Features:

- Portable, power-free & space-efficient
- Operates independently, saving manpower
- Support decontsmination during hazmat/CBRN events

Applications:

- Spider uses the venturi effect, has no nozzles and need no regular maintenance
- Once connected to water it runs automatically without manual help
- Slider under vehicles easily and covers areas standard extinguishers can't reach

EV Fire Blanket (Heavy)

Features:

- High-temperature resistant
- Rapid fire containment
- Heavy-duty and reusable

+

SPIDER
EV FIRE SUPPRESSION SYSTEM

Features:

- Direct underbody water discharge
- Rapid battery cooling
- Durable and easy to deploy

Fall Protection (Work @ Height)

Comprehensive fall protection systems designed to prevent injuries, improve workplace safety, and support safe work-at-height operations across industrial, construction, and maintenance environments.

1. Roofing Systems

- Safe access and protection solutions for roof work and maintenance.
- Suitable for metal, sheet, and concrete roof applications.
- Helps support inspection, repair, cleaning, and installation activities.

ROOF ACCESS SAFETY

ROOF ANCHOR POINTS

FALL ARREST PROTECTION

INSPECTION & COMPLANCE

2. Scaffolding Systems

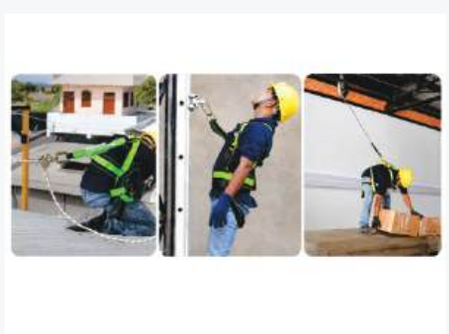

- Reliable elevated access support for construction and maintenance jobs.
- Provides safer working platforms for workers operating at height.
- Ideal for industrial shutdowns, facade work, and site maintenance.

SAFE WORKING PLATFORMS

ELEVATED ACCESS SUPPORT

STABILITY & SAFETY

CONSTRUCTION & MAINTENANCE

3. Engineered Fall Arrest System

- Continuous safety while moving across rooftops.
- Secure climbing protection with smooth movement.
- Reliable fall arrest for warehouses and vehicle bays.

HORIZONTAL FALL PROTECTION

VERTICAL LIFELINE SYSTEM

OVERHEAD LIFELINE SYSTEM

INDUSTRIAL SAFETY APPLICATIONS

4. Passive Collective Fall Protection Systems

- Collective protection systems such as guardrails, barriers, and safety nets.
- Provides safer working platforms for workers operating at height.

GUARDRAILS & BARRIRES

SAFETY NETS

PROTECTS MULTIPLE WORKERS

EDGES & ELEVATED WORK AREAS

Fire Protection

Comprehensive fire protection solutions designed to reduce risk, improve life safety, and support compliance across industrial, commercial, and institutional facilities.

Sure Safety provides integrated systems and services for detection, suppression, containment, and fire compliance support.

1. Passive Fire Protection Products

- Fire-stopping solutions to control fire and smoke spread.
- Includes fire coat, fire barrier systems, seal putty, and fire stop barriers.
- Ideal for cable trays, wall openings, ducts, and compartment sealing.

2. Fire Hydrant Systems

- Reliable water-based firefighting systems for buildings and plants.
- Includes hydrants, hose reels, valves, and pumping arrangements.
- Suitable for factories, malls, hospitals, and commercial facilities.

3. Fire Alarm Detection Systems

- Early warning systems for fast fire detection and evacuation.
- Conventional, addressable, and video-based detection options.
- Includes panels, detectors, hooters, MCPs, and monitoring devices.

4. Suppression Systems

- Automatic fire suppression for high-risk and critical areas.
- Options include aerosol, inert gas, FM-200, and clean-agent systems.
- Ideal for server rooms, electrical rooms, control rooms, and archives.

5. Aerosols

- Detects and suppresses fire quickly at the source.
- Easy to install in small spaces without cylinders or complex piping.
- Ideal for control panels, switchgear, machinery and server.

6. Battery Fire

- Specially designed for lithium-ion battery fires.
- Rapidly cools, controls and suppresses flames.
- Helps prevent dangerous fire re-ignition.
- Ideal for workplaces using battery-powered devices.
- Available in Aerosol, 1L, 2L, 6L, 9L, 25L and 50L variants.

Training & Consulting

When it comes to protecting people at work place, Sure Safety Training & Consulting division offers an assortment of classes and services to meet a variety of industrial safety needs. Our full range of **Industrial Hygiene Consulting, Safety Consulting, Fire Consulting and Hazard Management Services** are offered at our State-Of-The-Art training centers throughout the year. We also offer all safety training classes on-site, customized to the unique environment of your facility.

INDUSTRIAL HYGIENE CONSULTING

- Industrial Hygiene Study
- Qualitative Exposure Assessment
- API & Surrogate Assessment
- Ergonomics Assessment
- Heat Stress Assessment
- Noise Mapping & Assessment
- Indoor Air Quality Program
- Industrial Ventilation Effectiveness Assessment
- PPE Audit

SAFETY CONSULTING

- Safety Audits (IS14489)
- HAZOP
- Safety 360

FIRE CONSULTING

- Fire Audit

HAZARD MANAGEMENT SERVICES

- Inventory of Hazardous Material
- Asbestos Presumptive Survey
- Asbestos Quantification
- Asbestos Abatement Program
